SHEET METAL INDUSTRY TRAINING BOARD SHEET METAL WORKERS TRAINING CENTRE SOCIETY 5.0 SHEET METAL APPRENTICE TOOL LIST POLICY

Effective August 1 2011 the Sheet Metal Industry Training Board requires that all ITA registered apprentices attending the Sheet Metal Worker Training Centre for technical training provide their own hand tools. This applies to both Sheet Metal and Architectural Sheet Metal apprentices registered with the ITA.

The tool list for training is as follows;

1. 2 pair aircraft snips (red & green)
2. 1 pair folders (vise-grip type)
3. 1 8" screw driver
4. 1 16' measuring tape
5. 1 tinner's hammer
6. 1 tri-square
7. 1 scratch awl

Apprentices are required to bring these tools for the first day of class and have them with them for the duration of training. Tools will be assessed on the first day on class. Any required tools will be available for purchase at the Training Centre. Lockers are available at the Training Centre. Please bring a small lock.
